**Subject:** Texas EtO risk value/process

Folks, I wanted to circle back to confirm discussions. Thanks Lew and Kelly.

I called Dr. Honeycutt, TCEQ, yesterday. He seemed comfortable that he had his foot in the door with EPA. He sent Texas comments on the RTR for Stationary Turbine rulemaking. It requested comments on alternative EtO values according to Honeycutt. Texas commented that it intended to develop alt values.

Texas plans to publish its notice on Honeycutt's Effects Screening Level report, which may also contain an industry standard for Texas, soon... maybe by the end of next week. He said he planned on calling OAQPS and ORD soon to discuss. I recommended he talk with Kelly and Peter. I didn't get his contact name for ORD.
